### **Legal Updates**

There were no legal updates necessary for consideration at this Meeting.

### **Other Business**

President Lynch advised concerning the Austin Avenue matter that the Remedial Plan had begun and two feet of clean fill was being used to cover the ash. President Lynch added that the two feet of fill is the residential requirement and that meetings with the DEC were occurring regularly and the remediation effort was moving along.

Chairman Amicone stated that it is becoming more and more difficult to bring people into any community because whatever the State of New York had as an economic incentive program either were being eliminated or there were delays in components of any State incentive such as delaying tax credit payments. Chairman Amicone remarked that such actions by the State provide little reason for a business entity to invest and trust in New York State to honor its commitments and Chairman Amicone commented that is why Yonkers has lost business to other states.

President Lynch also advised about changes in the PAAA requirements and its impact on the YIDA. Cecile Singer requested a scope of services audit from O'Connor Davies Munns Dobbins since the structure within the YIDA has changed with two less employees. Melvina Carter, CFO for the YIDA stated the document would be forwarded to Board Member Singer.
